## **Notes Attached to this Report**

The Lobster pots licences have recently been re-leased for a further 15 months and continue to be a source of income for the group during the Lobster Season.

The Group continues to buy and sell shares when appropriate and continues to assess the various projects, including projects in the Resources and Energy sector, for a possible diversification of the Group's operations.

The Group continues to carry out various tests and assessments of methods to maximise the recovery, treatment and exploration of the gold tailings project in Western Australia containing substantial gold values, which the Group have been involved in, and reporting on since 9 January 2009. Whilst this project is currently suspended due to litigation, Cervantes continues to meet its obligations in accordance with the agreement by seeking and reviewing treatment methods and other options to generate a fair and equitable revenue to both Cervantes shareholders and the joint venture partner.

Discussion with a nearby miner for the transportation of tailings for treatment at their premises on a royalty basis as an alternative to self processing are continuing. However, the licence holder has attempted to terminate the agreement on what the Board consider to be unlawful conditions. The Company has lodged a caveat over the licences, the subject of the agreement, and may need to force the Licence holder to mediation in accordance with the agreement or pursue legal action. Legal action is now being prepared and will reluctantly be pursued in the near future to protect Cervantes shareholders interests and investment to date.

Cervantes continues to assist a third party's assessment of a highly prospective iron sands project over which the Company has a "first right of refusal" in the event that the party wished to joint venture, or dispose of part, or all of the venture in the near future, on terms that are mutually acceptable to both parties. Permit renewals and exploration programs are currently pending and imminent.

The Board will continue to assess projects, offers and opportunities which it believes will add value to Cervantes shares, based on market conditions, sector activity and ASX compliance requirements as well as ensuring the risk to reward ratio favours the Company and its shareholders.

The Company has cash and liquid assets in excess of \$433,000, being shares in listed companies, cash on hand and lobster pot licences, all of which can be progressively sold to meet commitments as and when required. The Company, based on its current assets and cash, has sufficient reserves to meet its costs and expenses for the next 2 quarters, as and when they fall due.
