ASX Announcement/Press Release

Cervantes Secures Fraser Range Acreage

Cervantes Corporation Ltd (ASX:CVS) ("Cervantes" or "the company") is pleased to announce that it have secured by way of a successful application for an Exploration Licence, a 56 block area within the highly prospective Albany Fraser Range area of Western Australia, in its 100% owned subsidiary, "Cervantes Gold Pty Ltd".

The opportunity was introduced to Cervantes by New York Securities Pty Ltd (AFSL 317392), a WA stockbroking firm, as a result of their research and connections within the industry sector.

The permit adjoins the boundaries of Mount Ridley Mines Ltd and is in the immediate vicinity of several other exploration companies currently carrying out exploration in anticipation of replicating the major success of Sirius Resources NL at their Nova Nickel discoveries in the Fraser Range.

Mount Ridley recently reported that they have commenced their diamond drilling program on its bedrock Conductor at Target 19, which is contained within the permit adjoining Cervantes permit and which Mount Ridley describe as "an exciting period of exploration at the Nickel Copper project".

Cervantes will now proceed to finalise any Native Title issues which may be required and carry out research of all and any historical data and exploration of the areas before formulating an exploration program.

Cervantes will monitor the success of all other companies' exploration programs within the vicinity on an ongoing basis to ensure a full knowledge of the area before commencing expenditure on any exploration, in consultation with our exploration consultants.

Cervantes will keep the market informed on a progressive basis as it work its way through the various stages of an exploration program.

END
